

Who I am

Energetic, creative, and humorous ambivert. I love music, dancing, and turning everyday moments into fun ones, while staying loyal, caring, and academically driven as I grow into my best self. I am a very down to earth person and the way I present myself is the way I am.

What I care about

I care about animals, my friends, my family and my religion.

What I am working towards

I am not sure what I am working towards but I do know I want to finish my degree and do a post-grad degree as well. The rest I'll figure out when it is needed.

Why my logo looks the way it does

I wanted to represent my sunflower personality.
